Subject: Re: proxy voting data - questions

I've checked with the people who handle these funds and they advised me that they do not give out that information. Sorry.

Dear Ms. Evans,

For my research paper, I have a few quick questions I was hoping you could answer or pass along to someone who may have more information. The point is to just add some detail describing the data I am analyzing.

1. What is the size of the Reserve and Staff Retirement funds? Who contributes to the funds?
2. Is there a benchmark return? Are the funds actively or passively managed?
3. Do other AFL-CIO affiliated union pension funds vote their proxies according to the AFL-CIO guidelines? Approximately how much money is managed accordingly (a ballpark number is fine)?

Thanks very much, again. I hope to have my paper written up in the coming months.

Best regards,  
Ashwini
